## **Crane Technician Wanted**

Handling Systems Inc. is seeking a technician with hoist & crane experience. We are a crane and hoist distributor over 55 years old providing engineering, sales, service and parts for a large customer base in Missouri, Illinois, and throughout the world.

Duties will include inspections, repairs and installations of overhead cranes and hoist.

Candidate qualifications should include the following:

- ~ Ability to troubleshoot and repair electrical controls (minimum two years experience)
- ~ Hands on experience with VFD's, AC & DC motors and controls
- ~ Experience with single and three phase electricity
- ~ Knowledge of remote control radio installation & repair a plus
- ~ Have a good driving record
- ~ Ability to climb and able to work at various heights
- ~ Good mechanical skills
- ~ Able to be on call, work occasional overtime and occasional out of town work
- ~ Good communications skill with customers
- ~ Must Pass Drug Test upon hiring and random testing
- ~ Have own basic tools required for this field of work
- ~ Welding skills a plus

We offer competitive pay with health insurance, retirement, paid vacation and a company vehicle. Candidate must live within the area.
